SPORTING NEWS

Did you know that, "In 2014 Australian researchers found that in a survey of 25 million children in 28 countries, 9 -17 year olds took on average one and a half minutes to run a mile than their parent's generation." (Toxic Childhood)

For the past few months the children have been running in 10 minute blocks a few times a week, working towards running a mile. This is proven to not only improve health but also concentration.

In order to help your children keep running/walking, whatever the weather, we are having a running track laid early in February.
